

THE CANE GROWERS' QUARTERLY BULLETIN

VOLUME XXIII

CONTENTS

	Page
Editorial	3
Rocking Rakes for Early Cultivation, by C. G. Story	4
Insecticide Experiments Against Wireworms, by A. A. Matthews	6
The Bundaberg Ratooning Problem, by R. B. Moller	9
Q.68, by C. G. Story	10
South Africa Visits Queensland	13
The Sugar Surplus—Its Cause and a Possible Remedy, by Norman J. King	14
Warning on Leaf Scald	16
Pictorial Section	17
Q.66 in the Mulgrave Area, by P. Volp	21
Some Aspects of Legume Crop Disposal, by A. G. Barrie	22
Over-production! Why More Research? by Norman J. King	24
Nitrogen—from a Green Manure Crop, by L. G. Vallance	26
The Conference Period, by Norman J. King	27
Wallabies Damaging Cane in the Mulgrave Area, by G. Wilson	28
Two New Seedling Plots	28
Progress with Mourilyan Harbour for Bulk Loading, by S. O. Skinner	29
Conference of Cane Pest and Disease Control Boards at Cairns, by C. G. Hughes	30
Insecticidal Trials in the Bundaberg-Isis Areas, by N. McD. Smith	33
Unsuccessful Use of the Carbide Gun for Scaring Wallabies and Coots, by G. A. Christie	35
The 1959 Field Days	36
Editorial	39
Silver Anniversary of Cane Breeding at Meringa, by J. H. Buzacott	40
Transmission of Chlorotic Streak Disease, by O. W. Sturgess	42

	Page
Forecast of Approved Varieties for 1960	45
Twenty-Five Years Ago	45
Control of Grasses on Tully Tramline, by E. H. Fox	46
More Cockatoo Damage	48
Pathology at the I.S.S.C.T., Hawaii, by C. G. Hughes	49
Heat Treating Cane Varieties at Meringa	51
Gambia Pea Control, by G. C. Bieske	52
Pictorial Section	53
Nitrogen—Splitting the Application, by L. G. Vallance . .	57
Crop Disposal, by C. A. Rehbein	58
The Control of Ratoon Stunting Disease, by D. R. L. Steindl .	59
Where Do New Diseases Come From? by B. T. Egan	61
 Trees—A Profitable Use for Waste Areas on Farms, by S. O. Skinner	63
BHC for Wireworm Control—Do not use Weak Mixtures, by R. W. Mungomery	65
A Note of Warning	66
Field Day Address—Meringa, 1959, by L. G. Vallance . .	67
Q.57 and Blue-top, by C. G. Hughes and S. O. Skinner	69
An Unusual Cause of Germination Failure, by L. S. Chapman	70
Refresher Course in Pest and Disease Control	71
Random Gleanings	72
Editorial—The Sugar Cane Surplus	73
In Memory—Lawrence Guy Scotney	74
A Century of Sugar, by Norman J. King	75
Items of Interest from the Bureau's 59th Annual Report . .	78
Abnormalities in Young Ratoons, by C. G. Hughes	82
Distributing New Varieties	83
List of Varieties Approved for Planting, 1960	84
Approved Fodder Canes	85
Control of the Black Beetle, by C. L. Toohey	86
Pictorial Section	87
 Use Lindane Advantageously but Carefully, by R. W. Mungomery	91
New Grower Member on Bureau Board	91
Four New Varieties, Q.69, Q.71, Q.72, Q.73.	92
A Cane Rake for Heavy Work	94
 The Use of Insecticides to Control Subterranean Insects in Taiwan	95
Bound Copies of Quarterly Bulletin	97
Nematodes and Sugar Cane, by H. E. Young	98
Control of Centro Seed	100
Appeal for Fire Control, by J. H. Buzacott	101

	Page
New Seedling Sub-Station at Tully	102
Meringa Field Day Address, by Norman J. King	103
The Isis Seedling Introduction Plot, by N. McD. Smith	105
Random Gleanings	106
Editorial—Is Restriction Being Practised?	109
Research Seminars in North Queensland, by J. H. Buzacott	110
Good News on Urea	111
Poor Ratooning Investigations, Bundaberg, 1955-1960, by R. B. Moller	112
Medical Facts About Sugar	115
Nut Grass, by G. A. Christie	116
Acclimatization and Deterioration of Varieties, by J. C. Skinner	118
The Rotary Slasher—A New Machine for Cane Destruction, by S. O. Skinner and I. T. Freshwater	119
Weed Control—The Value of Correct Identification	112
Pictorial Section	123
Badila Attains Retiring Age, by S. O. Skinner	127
Influence of Filter Mud on Seed Germination	128
Visitors from Abroad	129
A Basal Stem and Root Rot of Sugar Cane, by B. T. Egan and D. R. L. Steindl	130
Mosaic Disease Must Be Watched	131
Weedicide Damage in Ratoon Trojan, by L. S. Chapman	132
Poisons	133
Planting on Rich Land, by J. H. Buzacott	134
Soil Improvement, by C. G. Story	136
A Fact About Sugar	137
The Herbert River Story, by O. W. D. Myatt	138
A Plant Breeder Passes On	139
Sugar Experiment Stations Board	139
Margarodids—A Long-Lived Insect, by B. E. Hitchcock	140
1960 Field Day at Meringa	141
The Sugar Technologists' Conference	141
The Varieties Which Produce Our Crop	142

VOLUME XXIV

Editorial—Research in Sugar Cane Agriculture	3
Aerial Fertilizing, by G. C. Bieske	4
Chlorotic Streak in the Burdekin District	6
Progress in the Development of New Varieties, by J. H. Buzacott	7
Prickly Cucumber Control, by C. A. Rehbein	10

	Page
Field Day Address—Meringa, by L. G. Vallance	13
Some Angles of Mechanical Harvesting, by N. J. King . .	15
Diseases of Sugar Cane in North Queensland, by C. G. Hughes	22
Chemical Weed Control in North Queensland, by C. A. Rehbein and G. Bates	27
Insecticidal Experiments Against Soldier Fly, by R. B. Moller	29
Problems of Grub Control in the Isis Area, by J. Anderson and E. J. R. Luckett	30
Varietal Trials—1959 Season, by H. E. Young	32
Editorial	39
Rats and Their Control, by C. G. Story	40
Poisoning Coots	42
A Word on Frost Damage, by N. McD. Smith	43
Lindane Applicator for Greyback Grub Control, by L. S. Chapman	44
Wallaby Deterrents, by L. S. Chapman	47
A New Sport in Q.50, by C. G. Hughes	49
A Junior Farmer's School	50
Curvature of Cane Setts, by J. H. Buzacott	51
Field Day Address, Bundaberg, 1960, by L. G. Vallance . .	57
Soil Erosion Control in Fiji	59
The Burns Vertical Cane Slasher, by N. McD. Smith . . .	60
Leaf Scald South of Townsville, by C. G. Hughes	62
Destruction of Standover Cane in the Burdekin District, by L. S. Chapman and J. A. Hucknall	64
Proclamation 40 and its Requirements, by R. W. Mungomery	66
A Progress Report on the Chlorotic Streak Research Programme, by B. T. Egan and O. W. Sturgess	67
A Vigorous Hybrid Cane Sugar, by J. H. Buzacott	69
Ratoon Stunting Threatens a Valuable Variety	70
Cane Variety Changes on the Maroondan Soils, by J. Anderson	71
Forecast of Approved Varieties for 1961	72
Editorial—The Bureau is 60 Years of Age	75
Dr. Walter Maxwell and the Start of the Bureau, by Norman J. King	76
Claude Harding O'Brien	79
Changing Varieties (From the Bureau's Annual Report) .	80
Greyback Cane Beetle, by S. O. Skinner	83
A Droopy Top Trial, by L. G. Vallance	85
List of Varieties Approved for Planting, 1961	86
A Useful Machine for Planting Supplies, by I. T. Freshwater	88

	Page
The Effect of Two Farm Peak Schemes on Farm Management in North Queensland, by A. G. Barrie .. .	93
Bird Damage in Cane at Innisfail, by S. O. Skinner .. .	96
Those Poor Patches	97
An Expanded Programme of Seedling Selection for the Southern Districts, by H. G. Knust	98
Eighty-eight Years Ago	100
Chlorotic Streak Disease can Cause Poor Germinations, by B. T. Egan	101
Chlorotic Streak in the Moreton District, by C. L. Toohey	102
The Mosaic Disease Campaign in the Farleigh-Habana Area of the Mackay District, by E. A. Pembroke ..	104
Editorial—Dr. Kerr Goes to Persia	111
Sugar in 1960, by Norman J. King	112
Army-Worm and Grasshopper Outbreaks	114
Dalapon plus 2, 4-D for the Control of Weeds in Irrigation Channels, by L. S. Chapman	115
The Burnett Turntable, by N. McD. Smith	118
Correct Fertilizer Mixtures	119
More Mechanical Cane Topping Devices, by E. A. Pembroke	120
Sub-stations for Seedling Selection	122
Varietal Response to Nemagon Fumigation, by R. B. Moller	123
South African Visitors	124
Incorrect Fertilizer Placement can be Harmful, by P. G. Arnold	129
Legume Seed for the Sugar Industry, by G. A. Christie ..	130
Smaller Plots for Variety Trials, by J. C. Skinner ..	133
Problems in Pineapple Disease Control, by B. T. Egan ..	135
Rind Disease	136
The Growers Part in Variety Testing, by C. A. Rehbein ..	137
Frost Damage to Q.71	139
Q.67 in the Burdekin District, by J. Wesdorp	140
Striate Mosaic	142
Some Factors Influencing Efficient Use of Weedicide, by G. A. Bieske	143
Unauthorized Transfers of Fodder Cane	144
